NOEP offers scholarships to attend a **5-day Faculty Training Program at M.D. Anderson Cancer Center**. Earn CNE as you update your knowledge and skills in nursing. The Faculty Training Program is an opportunity to learn about the latest in cancer prevention, screening and treatment. Program participants hear presentations from various oncology clinicians and observe in an oncology clinical setting. Upon completion, faculty members are prepared to return to their school and offer up-to-date cancer education to students.

"The NOEP Faculty Training Program at M.D. Anderson was a phenomenal experience! The presenters are extremely knowledgeable and bring great diversity to the information presented. I highly recommend this program to any faculty member teaching nursing students."

Sandi Emerson, MSN, RN
Panola College, Carthage, TX

The University of Texas M.D. Anderson Cancer Center (MDACC) is an approved provider of continuing nursing education by the Texas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

The Nurse Oncology Education Program is a non-profit project of the Texas Nurses Association/Foundation.

This program made possible by the Cancer Prevention and Research Institute of Texas.
